**SUBMISSION OF FORMAL DRAWINGS
IN U.S. PATENT APPLICATION NO. 10/047,554**

Commissioner for Patents
Washington, DC 20231

Sir:

Enclosed and submitted herewith are formal drawings for Figures 1-6 in substitution of the originally filed correspondingly numbered patent drawings.

In the enclosed formal drawings for Figures 1-6, Figure 2 has been corrected to conform to the description of the drawing in the Brief Description of the Drawings at page 6, lines 1-2 of the application and in the Detailed Description of the Invention and Preferred Embodiments Thereof at page 12, lines 4-6, which describes Figure 2 in reference to the illustrated subject matter of antecedent Figure 1.

See, e.g., the reference at page 5, lines 22-24 to Figure 1 as a "schematic representation of a copper-specific corrosion inhibitor" forming a protective layer on copper metal, following by the description at the top of page 6 referring to Figure 2 as a "schematic representation of the copper-specific corrosion inhibitor being rinsed away from the copper surface by deionized water."

Please replace the drawings as originally filed with the enclosed formal drawings.

Applicant does not believe that any fee is due in connection with the foregoing. However, any deficiencies may be charged to the deposit account 50-0860.

The Examiner is invited to contact the undersigned at (203) 794-1100 should it be helpful in the further prosecution of the application.

Respectfully submitted,

Margaret Chappuis
